

## **Styles of Jazz - Power Point Presentation.**

You will be creating a power point presentation on the different styles of Jazz.

Your presentations should have at least 9 slides that cover each of the following styles of jazz: Ragtime; Dixieland; Blues; Big Band-Swing; Be-Bop/Bop; Cool/West Coast Jazz; Vocal Jazz; Free Jazz; Funky Jazz.

Your presentation should include pictures on some or all of the slides.

All your information should come from the internet. You should make a note of all URL's of websites that you visit, and the date you visit them. You must only copy and paste into a word document, not straight into your power point presentation. You will then key word that information. You should ONLY use your key-word notes for the information that goes into your power point presentation. NO PLAGIARISM. You may use pictures from the internet and/or the "Division 4" Jazz Pages.
